

Feed Scale for Hogs

CHORE-TIME®

Chore-Time's Feed Scale offers an affordable means of improving feed delivery scheduling through more comprehensive data collection and analysis. This system can also be used as a real-time diagnostic tool to help measure animal performance based upon eating rates and habits.

Product Features and Advantages

- Real-time data regarding feed inventory assists with scheduling feed delivery.
- Accurate daily consumption rates help in evaluating growth performance and in identifying potential problems.
- Unique pivoting, split hopper dumps feed from one side while the other side is filling, for continuous flow of feed.
- Dependable unit eliminates common variables, like temperature variations and power surges, for greater accuracy.
- Scale mounts neatly against the sidewall of the house and features durable, corrosion-resistant steel construction.
- Unit registers exactly what is being fed rather than relying on problematic volumetric projections or imprecise auger timing.
- Scale is factory calibrated for high accuracy.

CHORE-TIME® Feed Scale System

Specifications

- Suitable for hog or poultry operations.
- Typical installation requires one scale per house and interfaces with most current CHORE-TRONICS® Controls. Each CHORE-TRONICS® Control can monitor multiple feed scales.

Warranty and Service

Chore-Time's hog systems are backed by a generous warranty and by a worldwide network of trained technical service and distributor professionals. For the distributor nearest you, contact Chore-Time's Hog Production Systems Customer Service Department at 800-341-1039.
