Control . . . Monitor . . . Analyze . . . Improve . . . CHORE-TRONICS® C-CENTRAL™ Management Software

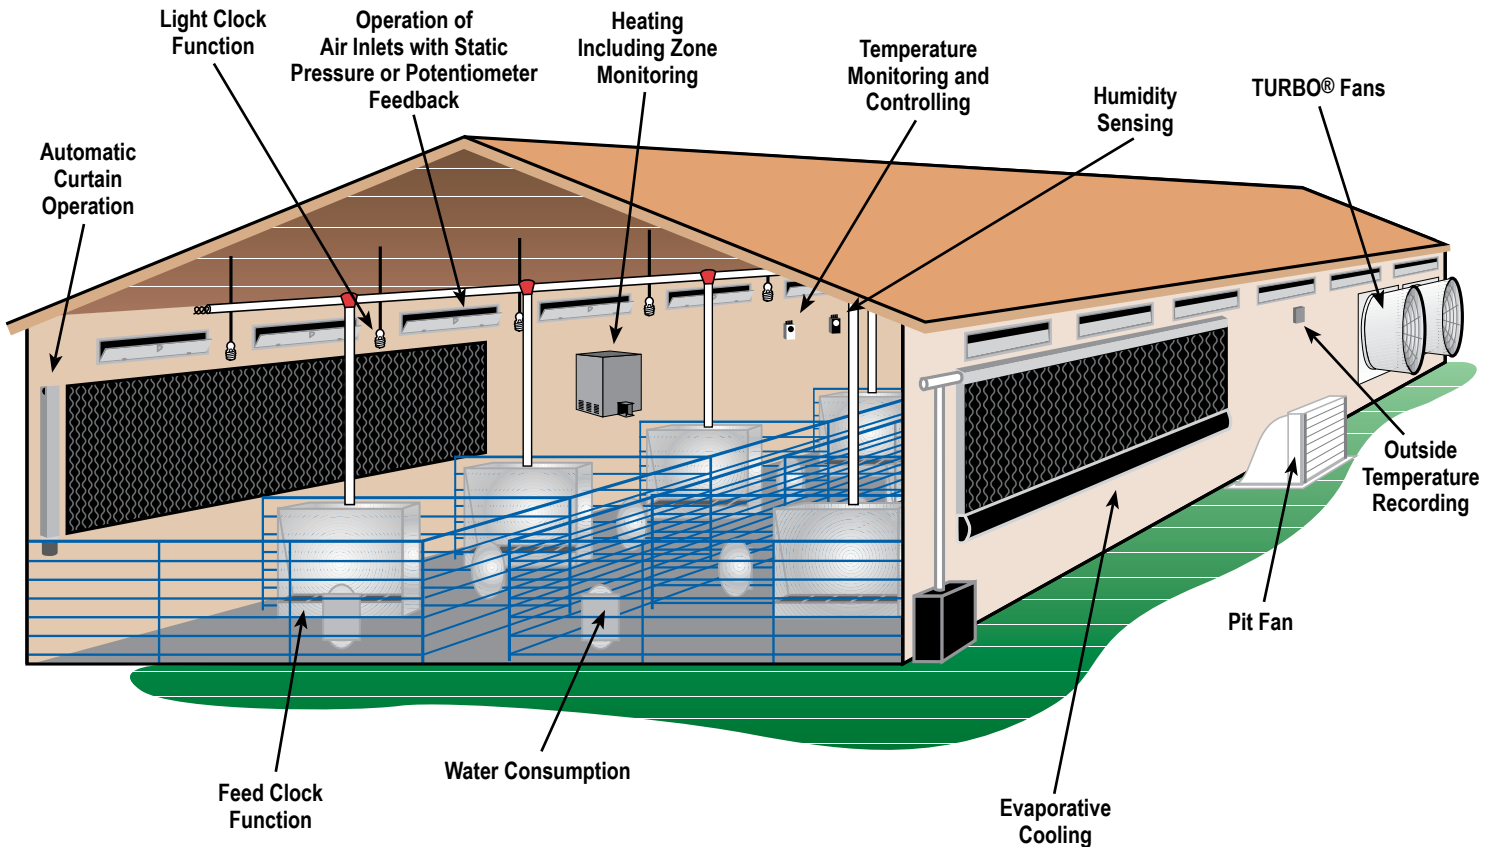

Used with CHORE-TIME® CHORE-TRONICS® Controls, C-CENTRAL™ Software gives you more flexibility and precision in house control and monitoring than any other system available today.

Features & Benefits

- ▶ Uses familiar Windows®-based operating system.
- ▶ Works with all CHORE-TRONICS® Controls.
- ▶ Monitor and adjust multiple controls from the farm or off site.*
- ▶ Page and table templates help display user-selected information quickly.
- ▶ Critical data can be presented on-screen or printed, in table or graph form.
- ▶ View vital statistics of one room, one house, or the entire farm, at a glance.
- ▶ Archive data for future review and comparison.
- ▶ Retrieve data when and where it is most convenient.*
- ▶ Access critical data easily for better decision-making.
- ▶ Use data to fine-tune house conditions and to find and resolve problems.

*Remote monitoring with CHORE-TIME® C-CENTRAL™ software requires the use of a modem, or a modem and similar software (not included).

CHORE-TRONICS® Controls Help You Manage Your Business

CHORE-TIME® CHORE-TRONICS® Controls let you manage all these and more, at the control, or remotely, using CHORE-TIME C-CENTRAL® Software.

CHORE-TIME® Accessory Equipment Also Available:

Static Pressure Kit

Highly accurate, integrated instrument that monitors, displays and helps maintain required static pressure levels.

Back-Up Box

This device will continue to operate the house so long as electrical power is still available, in the unlikely event that the control stops functioning.

Lightning Protection

Devices attach to the house, communications lines, and accessory items to help isolate the control from power surges.

Water Meter

Measures and records water usage or consumption daily and stores the data in the standard 100-day history.
