

Feed Conveying Scale for Pigs

CHORE-TIME®

The CHORE-TIME® Feed Conveying Scale offers an affordable means of improving feed delivery scheduling through more comprehensive data collection and analysis. This system can also be used as a real-time diagnostic tool to help measure animal performance based upon daily feed consumption and habits.

Product Features and Advantages

- Accurate daily consumption rates help in evaluating growth performance and in identifying potential problems.
- Real-time data regarding feed inventory assists with scheduling feed delivery.
- Unique pivoting, split hopper dumps feed from one side while the other side is filling, for continuous flow of feed.
- Dependable unit eliminates common variables, like temperature variations and power surges, for greater accuracy.
- Scale mounts neatly against the sidewall of the house and features durable, corrosion-resistant steel construction.
- Unit registers exactly what is being fed rather than relying on problematic volumetric projections or imprecise auger timing.
- Scale is factory calibrated for high accuracy.

CHORE-TIME® Feed Conveying Scale System

Specifications

- Suitable for pig operations.
- Typical installation requires one scale per house and interfaces with most current CHORE-TIME CHORE-TRONICS® Controls.
- Each CHORE-TRONICS® Control can monitor multiple feed scales.
