Pit Fan with Transition

Shutters

TURBO-COOL™ Evaporative Cooling

TURBO® Grill Fan

Ask about
Chore-Time's

Durable, pig-tough fiberglass fans with cast-aluminum blades from the smallest pit fan to a 52-inch (1321-mm) cone fan are available for high-performance air movement. Complete with a lifetime limited warranty, all TURBO® Fans are put through rigorous testing by Chore-Time and are then rated by BESS Labs.

Chore-Time's TURBO-COOL™ Evaporative Pad Cooling System offers efficient, hot weather relief. The TURBO-COOL System features a heavy-duty, reinforced, seamless trough, a convenient open-top design, a high-performance pad and a well-designed, innovative sump tank.

Controls, Inlets, and Winches

PigTek offers a complete line of CHORE-TIME® thermostats and static pressure controls, as well as user-friendly complete system controllers and management software with remote control options to meet your needs.

Winches to automatically open and close curtains and inlets are available in various sizes and capacities. Inlets and baffles are also part of PigTek's line of equipment for pig house ventilation.

Instruction manuals, informational videos, and regional technical service staff are part of what you get when you choose

PigTek's value ventilation package.

You can get the information you need when you need it for the smallest nurseries or the largest gestation, breeding, or finishing houses as well as any other pig facility application. We can help you to design, install, program, and improve the operation of your Chore-Time environmental control system.
