

# Feed Inventory System for Pigs

PigTek's CHORE-TIME® Feed Inventory System provides an economical means for managing and monitoring feed stored in feed bins on the farm. Producers easily check feed bin weights by using a read-out screen. Getting precise weights aids in better managing feed inventories and helps to prevent costly out-of-feed events. Designed to work as a stand-alone system, the feed inventory system also can be connected with the company's popular C-CENTRAL™ or C-COLLECT® software to provide remote location and multiple house monitoring.

Economical, precise feed inventory management

Easy-to-read four-line viewing screen always remains lit

## Product Features and Advantages

- Provides real-time inventory data for on-farm feed storage and consumption without needing to climb feed bins and visually checking feed levels.
- Kits available for single and two-bin systems with four or six bin legs. Gross capacities up to 60 tons (55 metric tons).
- System easily adapts to new or existing facilities.
- Rugged, weather-resistant load cells add 6 inches (152 mm) to overall bin height.
- Load Cell Indicator display unit:
  - Mounts on the feed bin or can be located in a building up to 1,000 feet (300 m) away.
  - Offers a built-in communication (FNM) board and data port for off-site monitoring using the company's C-CENTRAL™ or C-COLLECT® software.
  - Displays feed weights for up to two separate bins sitting on two different sets of load cells.
  - Shows weight in either pounds or kilograms along with date and time displayed with either 12- or 24-hour clock setting.
  - Practical screen navigation and edit keys offer quick indicator control set-up and changes.
  - Password-protected access feature restricts control operation to authorized users only.
  - Alarm function alerts operator to system alarms and warnings and includes a list with date and time of the 10 most recent alarm events.

Load Cell Indicator Control is simple to operate for monitoring feed bin weights

Works with C-CENTRAL™ or C-COLLECT® software to remotely monitor feed inventories at the farm or off site

Kits Available	MODEL NUMBER	MAXIMUM SYSTEM WEIGHT	
		TONS	METRIC TONS
Two Six-Leg Bins	ST55000-K	60	54.4
