

9" Hyflo Fan Panels Installation

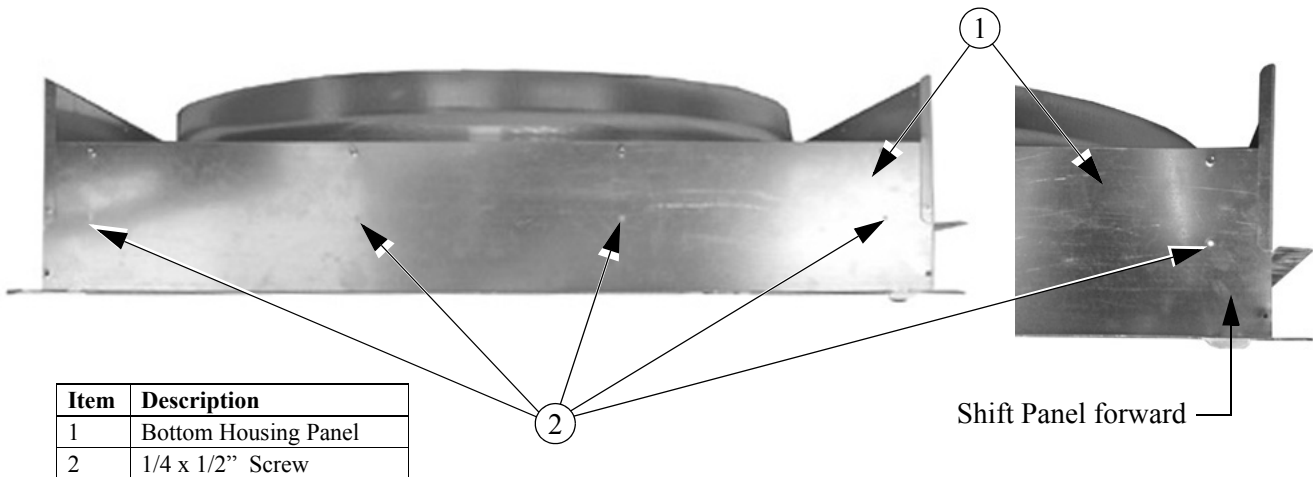

Warning!! Do not rest the Fan on the Blade. Support the Fan at the Corners of the Shroud to avoid damage to the Fan. To make use of the 9" Fan Panels on the Hyflo Fan the panels need to be shifted to the second set of holes near the front of the Panel. Start by removing the 1/4 x 1/2" Screws from the **Bottom Panel**.

Support the Fan on Corners of Shroud

Item	Description
1	Bottom Housing Panel
2	1/4 x 1/2" Screw

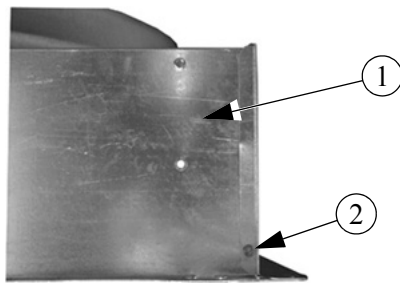

Shift the Panel forward and re-attach using the two 1/4 x 1/2" Screws that were removed, plus two more from the Parts Package included.

Item	Description
1	Bottom Housing Panel
2	1/4 x 1/2" Screw

Shift Panel forward

Remove the 1/4 x 1/2" Screws from the three remaining panels and shift them to the second set of holes and re-attach them to the shroud exactly the same as you did to the Bottom Panel. Attach the four Housing Panels together at the Corners of the Fan with four 1/4 x 1/2" Screws at the locations **shown below**. In total there should be 4 Screws holding each Panel to the Shroud and 4 Screws holding the Panels together at the Corners of the Fan for a total of 20.

Item	Description
1	Bottom Housing Panel
2	1/4 x 1/2" Screw
